

Harness IGNITE PROTON WIND WS Skylotec

Product information

The IGNITE PROTON is the evolution of our popular ARG 51 to a higher level. A safety harness with an elaborate and thought-out design with thermoformed hip padding airpad and sophisticated construction leaves nothing to be desired in terms of comfort and usability. The central chest eyelet can be adapted perfectly to the user. Anatomically preformed shoulder and leg padding clings to the body and distributes the load optimally. Excess belt strap is no longer a disturbing factor due to practical belt strap coiling with fixation. The standard fitting with preformed gear loops and tool eyelets for any requirement is matter of course. Can be hand washed up to 40°C.

- Ergonomic high-tech padding AIRPAD
- Colour coding to identify the main anchoring points
- Tool eyelets and gear loops for every purpose

Material: Polyester, Aluminium, Steel

Marking: According to standard, CE-marked, Supplier symbol, product id, size/length, production date, reference no, serial no.

Temperature range: -35°C up to 45°C

Standard: EN 353-1

AS 1891.1
