

## Weld-On Transport Ring S/S Green Pin®

### Product information

The Green Pin® Stainless Steel Weld-On Transport Ring is a grade 5 stainless steel weld-on transport ring. The non-corrosive nature of stainless steel makes it the perfect choice for use in industries such as foods, nuclear and sailing. Welding must only be carried out by a qualified welder in accordance with DIN 8563 resp. 15429. The surfaces to be welded must be clean, without oil, grease or paint. Welding instructions are supplied with each delivery. The transport rings are delivered without springs.

**Material:** AISI 316L

**Temperature range:** -40°C up to +200°C

**Finish:** polished

**Note:** regarding the selection of welding material, respecting parent and PASI materials, please refer to EN 3581 for manual metal arc welding and to EN ISO 14343 for arc welding

**Grade:** 5
