

Phone Gripper with Coil Tether (Non-Conductive)

Product information

The GRIPPS® Phone Gripper, when paired with a load-rated tether, utilises purpose-built silicon to provide a secure tethering solution without impacting device functionality.

Features:

- Custom silicon compound made for strength and grip.
- Avoids installing a permanent connector point on a mobile device.
- No additional adhesives required.
- Integrated, load-rated tether connection eyelet.
- Compatible with most smartphone models.
