

Vehicle Chain Safety Hook Set G80

Product information

Set consist of 2 eye sling hooks and 2 chain connectors.

The kits are available in three sizes, each with different Towing Capacities, breaking forces, and chain size compatibility, ensuring that they meet the towing requirements for various Aggregate Trailer Masses (ATM).

Chain must be ordered separately.

Marking: According to standard

Standard: AS 3776, AS 4177.4

Note: After 13mm Grade 30 trailer chains, a non-galvanised Grade 80 or Grade 100 chain must be used.

Part Code	Chain size mm	MBL ton ton
7098103506	8	4.48
7098103508	10	8
7098103510	13	12.8
